Moscow University of Electronic Technology
Engineer (5 years, applied mathematics)

portfolio

Break from work
Feb 21 – now

I'm refreshing myself after 11+ years of work by following curiosity: reading, swimming, meeting new people, learning Spanish, programming for pleasure, learning the basics of drawing, 3D modeling and Arduino, walking a lot.

Indeed
Apr 17 – Feb 21 • Tokyo • Product Manager

Improved search quality
- convinced management to experiment with ML models in matching
- introduced quality metrics and set up relevance assessment
